

FBN SALES, INC... your exclusive source for MAGNETIC TECHNOLOGIES headsets...

PROUDLY MADE IN AMERICA

Magnetic Technologies Ltd. have been providing quality hysteresis clutches for 24 years. They have tens of thousands of units in operation. Their unique design provides for lower inertia during application and totally encapsulated magnets to work in the harshest environments. The Magnetic Technologies engineering and support staff is available to design custom headsets to handle your specific need.

Headsets and magnetic capper clutches available for all major OEM's:

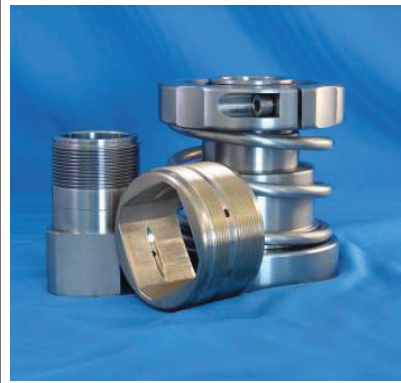

- * Alcoa Cappers
- * Arol Cappers
- * Federal Cappers
- * Fogg, 700-series + Pick & Place
- * Krones Cappers
- * KHS Cappers
- * US Bottlers, All Models
- * Zalkin, All Models

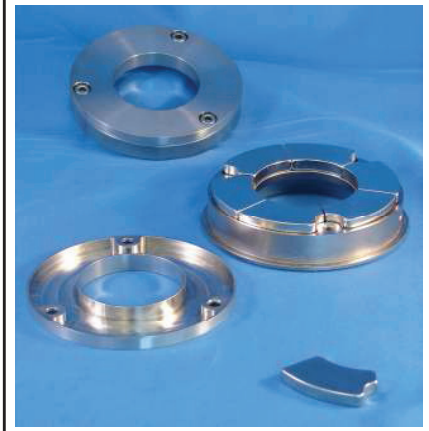

Hysteresis Headsets: Hysteresis Magnetic technology provides smooth, non-ratcheting torque for tighter torque control, longer life, and simple rebuilds. The ideal solution for short caps providing material cost savings including the new 1881 closure finish.

**Significantly lower moment of inertia than the leading competitor...
Ask us for details.**

Patent Pending Top Load Design: Incorporates polygon drive system for maximum load and unique self-centering feature. **NO DOWEL PINS!**

Double Encasulated Magnets: Totally protected individual magnets. Ask about our **extended magnet warranty.**

Magnetic Technologies and FBN Sales, Inc. offer a headset exchange program. The exchange program allows customers to receive factory rebuilt and warranted headsets on a pre-determined schedule. Headset Exchange Program available for, but are not limited to:

- * Alcoa Magna Tork and Magna Tork 2000
- * Alcoa VK560 and VK570
- * Zalkin BZ-2, BZ-3
- * Fogg 700 Series, Model 45
- * Arol PK 310, PK 315
- * US Bottlers Pneumatic and Mechanical
